canardesign.com

Freelance since 2012, I work on web projects with strong business requirements, mainly using Drupal. I support my clients from design to deployment, with recognized expertise in taking over existing projects, redesigns, custom development, API integrations, and application maintenance.

Expertise	Technologies	Added value
Drupal 6 to 11 Business back-office Custom modules and entities E-commerce APIs and integrations	PHP, JavaScript, HTML/CSS Drupal, Symfony 4 DDEV, Docker, Git, Drush, Composer ASP.NET, C#, VB.NET MySQL, SQL Server, Oracle	Overall vision Autonomy and responsiveness Flexibility across multiple projects Ability to take over existing projects Client relationship and delivery

MAIN EXPERIENCE

Since 10/2012 | CANARDESIGN - Freelance multi-project designer and developer

- Development of institutional websites, extranets, customer portals, e-commerce websites, and custom business tools.
- Full or partial project management: scoping, technical design, development, deployment, and maintenance.
- Regular work in Drupal environments, complemented by custom PHP, WordPress, Prestashop, and .NET depending on project needs.

Selection of assignments:

2026 - OPOPP - Drupal 10 (OGP Immobilier)

Tool platform for real-estate professionals, numerous custom modules and entities, custom back-office, custom theme.

2025 - Soappi - Drupal 10 (OGP Toulouse)

Training platform, management of training courses and sessions, e-learning, document dematerialization, e-commerce, custom back-office, custom theme.

2025 - MASTER PRO - Drupal 10

Institutional website, client REST API, custom back-office, custom theme.

2024 - OpenAssur / SN Logica - Drupal 7 to Drupal 10 migration

Taking over an existing project, functional and technical migration.

2024 - Groupe COFAQ - Drupal 10

Institutional website connected to the client's REST API, specific back-office.

2024 - OGP - Drupal 10

Development of a custom real-estate calculation tool.

2024 - mariage-location.fr - Drupal 11

Website development and adaptation to business needs.

2023 - Siblu - Drupal 9

Customer portal, bookings, payments, Maxxton and Cognito API integration.

2023 - metal-interface.fr - Drupal 9

Redesign and evolutions of a multi-domain and multilingual directory.

2023 - JLPT Easy - Drupal 9
